Overview

This project covers the design and development of a **standalone public-facing business website** for the Marae, integrated with the **MaraeBiz Bookings Public Calendar**. The website will provide general information about the Marae, display confirmed bookings through an online calendar, and allow visitors to submit booking enquiries.

1. Website Structure & Pages

The website will be accessible to **public visitors** and will include the following pages:

1.1 Home

- Displays Marae information using:
    - Images
    - Text content
- Serves as the main landing page for visitors.

1.2 Bookings Calendar

- Displays the **Public Booking Calendar** integrated with MaraeBiz Bookings.
- Shows **approved and confirmed bookings only**.
- Displays booking **date and time only**.
- Includes a clearly visible **Booking Enquiry button**.
- Calendar data updates automatically when booking status changes in MaraeBiz Bookings.

1.3 Booking Enquiry

- Provides a **Booking Enquiry Form**.
- Allows visitors to submit booking requests.
- Submitted enquiries are passed into the existing MaraeBiz Booking Enquiry workflow.

1.4 Contact Us

- Allows visitors to submit general enquiries.
- Enquiry submissions are sent to the **integrated email address** configured for the Marae.

1.5 About Us

- Displays information about the Marae using:
    - Images
    - Text content
- Content provided by the client.

1.6 Services

- Displays services offered by the Marae.
- Uses:
    - Images
    - Text content
- Content provided by the client.

2. Functional Requirements

Public Access

- Website is publicly accessible.
- No user account creation or login required.

Calendar Integration

- Booking data is pulled directly from **MaraeBiz Bookings**.
- Calendar updates automatically when:
    - New bookings are approved
    - Existing bookings are modified or cancelled

3. Responsiveness & Compatibility

- Website will be fully responsive.
- Optimised for:
    - Desktop
    - Tablet
    - Mobile devices

- Compatible with modern browsers.

4. Hosting & Deployment

- Website will be developed as a **standalone solution**.
- Hosting and deployment:
    - Available **on request**
    - **Not included** in this scope unless specified separately.

5. Assumptions & Notes

- Public visitors do **not** need to create accounts.
- All text content and images will be **provided by the client**.
- Hosting setup, domain registration, and ongoing hosting costs are **excluded** unless agreed separately.
- Website content structure will follow best-practice UI/UX standards.
